

Ignite Confidence and Build Future-Ready Skills Through Entrepreneurial Education

Many of today's young people feel disconnected from learning and that school isn't relevant to their future. Students are hungry for meaningful, personalized learning experiences that re-engage them in learning while helping them build the skills they'll need for success after graduation.

For nearly 40 years, NFTE has partnered with districts in under-resourced communities to develop students' entrepreneurial mindset and immerse them in authentic, hands-on learning.

Through NFTE's comprehensive entrepreneurial education program, every student — regardless of their future path — will be empowered to build the skills necessary for a successful career.

The dynamic NFTE experience is adaptable to the unique needs and goals of your district, energizing and engaging teachers and students alike.

“With NFTE, everything finally started coming together. It changed my entire trajectory, propelling my professional career.”

~ Kaina Lisibach, NFTE graduate

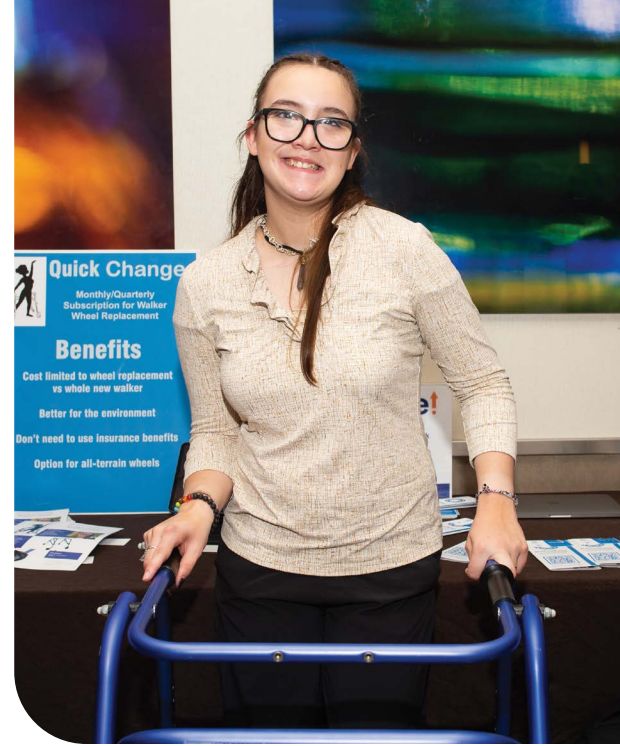

LET'S GET STARTED

Empower Teachers, Uplift Students, Transform Communities

Imagine classrooms where students are immersed in hands-on learning that is meaningful to them. Where youth are developing solutions that uplift their communities while building skills to successfully enter the workforce or pursue the postsecondary option of their choice — college, career and technical education, or military service. And where, teachers, volunteers, and mentors join forces to make real-world experiences come alive. Equipped with ongoing training and support, they prepare students to pitch their business plans in local, national, and international competitions.

This is the transformational power of NFTE. Our comprehensive entrepreneurship program for grades 5-12 helps districts graduate students who have the skills, confidence, connections, industry credentials, and real-world experience to lead change and shape their own futures.

Ignite a lifelong journey of learning, leadership, and success for your students.

of employers say it's important that the workforce have the kinds of entrepreneurship skills NFTE teaches.

students inspired by NFTE; 71% qualify for free and reduced-price school meals.

of NFTE alumni report that they are earning more than the median salary in the United States today.

NFTE STUDENTS ARE:

Motivated and inspired by business plan and pitch competitions that help students refine their ideas and presentation skills and offer the chance to win seed capital to launch their business or pursue educational goals.

Connected to business people in their communities and across the country from similar backgrounds who volunteer as mentors and coaches, offer in-person and virtual field trips, and provide internship opportunities.

Supported with comprehensive, hands-on, project-based curricula that teaches the lean business model and helps students develop an entrepreneurial mindset, including skills like problem solving, communication, critical thinking, creativity, and resilience.

Challenged to develop a solution to a problem in their own lives or communities and pitch their ideas. Through this process, students take ownership of their learning, build confidence, and are actively engaged in improving their own and others' lives.

Together we can launch the next generation of diverse entrepreneurs and leaders.
